Subject: Re: CISWI Testing protocol

Categories: Pogo FOIA

Okay. Sounds good. Once we complete this test we will have a much better understanding of where we are at with CISWI.

Our attorney Mr. Jeff Hunter has already reached out to you.

We are considering a COBC and hopeful a solution may be crafted within that mechanism.

Yes, you can send all general requests to me, or include me on the cc, or if addressed to the region and incinerator related it will find me.

For a formal request for a compliance extension, you may address the Regional Administrator, Dennis McLerran, or My Division Director, Kate Kelly.

Hi again. I listened to the meeting by phone... and am pleased to hear from you.

We are also sending a petition to EPA because our incinerator doesn't have a control device yet. We are testing it to determine what is needed. Shall I email it to you?

Hi Sally, this last Wednesday the Alaska Oil & Gas Association gave a presentation to Acting Office of Air and Radiation, Assistant Administrator, Janet McCabe and staff members of the Senate Committee on Energy & Natural Resources on the Small Remote Incinerator category of CISWI (Commercial Industrial Solid Waste Incinerators).

Separate from that discussion about future testing, it was mentioned that you would soon be submitting a testing protocol for unit located at the Pogo Mine to Region 10 for review. I wanted to reach out to you to let you know that if you have any questions I am the Regional point of contact for the CISWI rule, and that you can address that testing protocol to my office, my contact information is below. Thanks.
